

American Institute of Certified Planners (AICP) Certification Maintenance (CM) Credits

The following sessions of the 2010 TRB Environment and Energy Research Conference have been **approved** for AICP CM credits. AICP's Certification Maintenance program helps planners gain the knowledge and skills they need to remain current in the practice of planning. For more information about this program of certification, visit <http://www.planning.org/cm/howtoearn.htm>.

JUNE 2010		CONFERENCE SESSIONS APPROVED FOR AICP CM CREDITS	
DAY	TIME	SESSION NUMBER AND TITLE	CM CREDIT HOURS
Monday 6/7	10:30AM-Noon	4. Particulate Matter Project-Level Analysis	1.5
		5. Addressing Climate Change Impacts at the Transportation Project Scale	1.5
	1:30-2:45PM	7. High Speed Rail Environmental Impacts in Urban Areas	1.25
		10. Public-Private Partnerships, Tolling and the NEPA Process	1.25
		11. Integrating Transportation, Land Use, and Pricing Policies – Part I: A National View	1.25
		12. Reducing Traffic and Traffic-Related Pollution Exposure	1.25
		13. Advanced Data Collection Methods and Technology for Air Quality/Transportation Models	1.25
		16. Integrating Transportation, Land Use and Pricing Policies – Part II: Methods to Integrate Policies for Sustainable Results	1.25
	3:00-4:15PM	17. Use and Misuse of Social Media: Getting it Done Right	1.25
		18. Managing Consulting Parties in the Section 106 Process	1.25
Tuesday 6/8	7:45-9:15AM	Plenary B: Future Roles and Responsibilities of Transportation Agencies	1.5
	9:30-10:45AM	19. Recent Studies of Air Pollutants in Near-Road Environments	1.25
		20. Improving Access to Airports: Integrating Airports and Light Rail	1.25
		23. Land Use and NEPA: How and Why to Evaluate Land Use Impacts	1.25
	11:00AM-12:15PM	28. Transportation's Role in Reducing US Greenhouse Gas Emissions	1.25

JUNE 2010		CONFERENCE SESSIONS APPROVED FOR AICP CM CREDITS	
DAY	TIME	SESSION NUMBER AND TITLE	CM CREDIT HOURS
		30. Considering the Larger Pool of Non-Discrimination Laws as Part of EJ Analysis: Applications of Civil Rights Laws to ARRA:BARC	1.25
	1:30-2:45PM	36. Transit and Sustainability	1.25
	3:00-4:15PM	37. Linking Community Visioning and Highway Capacity Projects: A New Paradigm	1.25
		42. Forecasting Regional Development, Travel Behavior and Spatial Pattern of Emissions	1.25
Wednesday 6/9	8:00-9:15AM	43. Adapting Transportation to Climate Change	1.25
		47. Lessons Learned from P3 Public Involvement Initiatives	1.25
		48. Why is EJ a Big Concern in Transportation Planning?	1.25
	9:30-10:45AM	49. Communicating Sustainability Values – Part I	1.25
		50. Who's Suing Who About What: The Latest in Surface Transportation Litigation	1.25
		53. Emerging State Approaches to Regulating Climate Change Impacts of Land Development	1.25
		54. How to Achieve a Low Carbon Transport System in 2050	1.25
	11:00AM-12:15PM	55. Making Livability Happen: Moving from the Federal Policy to Delivering Outcomes	1.25
		58. Communicating Sustainability Values – Part II	1.25
		59. Impact of Climate Policy on Transportation	1.25
	1:30-2:45PM	64. Innovative Environment and Planning Decision-Making Tools	1.25
		65. Livability: What Is It and How Do You Measure It?	1.25
